

All Ears
for animals

THE ULTI-MUTT CANINE TRAINING PROGRAM

Creating a life-long mutual bond of

Love, Respect and Trust

ABOUT ALL EARS

Co-founded by Divya Sanbhwani and her cat, Scarlett who guided her into the world of listening, understanding and serving animals as a passion now turned into life's purpose

Established in 2016, All Ears believes Problems End when we Start Listening. Aligning our mind, body and spirit as a human companion to our dogs truly helps us understand how to raise them and especially train them in a language they understand best.

Over the years, All Ears has helped over a 1000 families strengthen their bond with dogs just by initiating a two-way communication to understand their needs and they would like to be trained.

NO TREATS

NO CHAINS

JUST LOVE

ABOUT THE PROGRAM

“ It's all about crossing the bridge to arrive to mutual love, respect and most importantly... trust ”

The Ulti-Mutt Program focuses on training a dog in life skills to imbibe in daily life which is important to govern their behavior and ensure that their safety and security, is **our responsibility**

13 Sessions

Months

90 Minutes per session
one session once a week

WHAT MAKES OUR TRAINING DIFFERENT?

PARTNERING WITH YOUR DOG TO TRAIN YOU

It's important for you to create a special bond with your dog, as it will be you living with him for the next 12-15 years. This way, you're able to handle them anytime, anywhere and not just with us.

TRAINING WITH COMMUNICATION

Going beyond training and combining it with communication to help your dog understand the WHY, WHAT & HOW of the command, and also listen to him - how would he like to be trained?

NO TREATS OR CHOKE CHAINS ONLY DOG FRIENDLY METHODS

Our methods are based out of how one dog trains another dog. No treats are used as a reinforcement or chokers to instil fear. We train with hand signals, verbal commands & body language, just like dogs!

NO TRICKS - FOCUS REMAINS ON HOLISTIC COMMANDS

Tricks like roll over, spin etc are performance based for the purpose of entertainment and are not useful in real life situations. We focus on holistic commands that you can use for life, each serving a purpose for you and your dog.

TRAINING VIA:

HOME VISITS

VIRTUAL SESSIONS

OUTDOOR SESSIONS

13

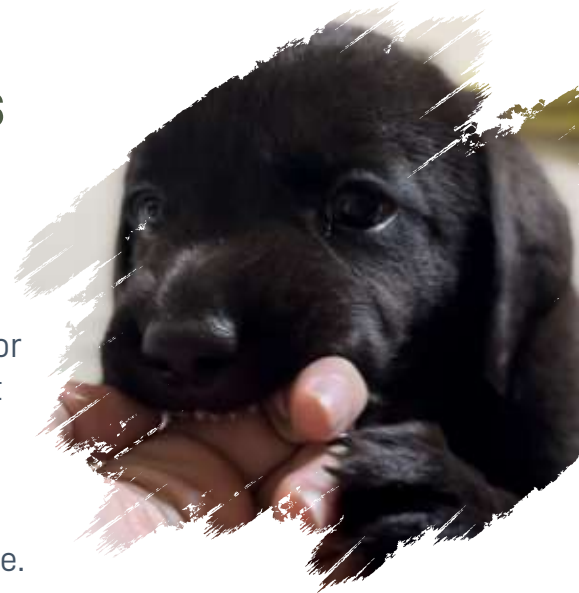

INTERACTIVE SESSIONS

WHAT DO WE INCLUDE?

Teething, biting & lunging concerns Helping your Dog understand rules with guidance

It is important to teach our pup what is off-limits for them eg. the furniture or biting our hands and what is acceptable ie. chewing their toys, playing with other dogs etc. When our dogs seek guidance and direction from us, we are able to shape their behaviour in the right way and resolve issues for life.

Creating Indoor/Outdoor Boundaries

Running right out of the door when the doorbell rings is never a good sign and can be dangerous! Creating healthy boundaries for our dogs helps them understand there are places that is off limits such as the kitchen, temple room or even when left off-leash outdoors - to not exit the main gate!

Natural Food & Nutrition

We believe in all things natural! Our expertise lies in helping you create a perfect diet plan for your dog including fresh home-cooked food, even snacks and treats, all this using natural produce - making it a balanced diet.

Organic Grooming & Care

Instead of investing in expensive shampoos and chemicals, we teach you natural grooming methods and remedies for ticks and fleas. Say good-bye to skin problems, rashes and itches, time to raise a healthy and happy dog!

Toilet Training (indoor + outdoor)

Teaching your pup the right spots to release himself will save you a lot of trouble! It is important for them to learn where they can and cannot pee inside the house or outside. Let us help and make this easy for both, you and him!

Separation Anxiety

Due to the lockdown, we spent all our days right beside our pup, and with our life getting back to normal, it's essential our pets learn to stay on their own at home and not feel anxious. A crate may seem like a quick fix, but we focus on smart training methods to work on resolving separation anxiety permanently!

On-Leash Walking alongside you in united mind, body & spirit

Walking with your dog feels great when your dog is calm, not like an impossible task where your dog keeps tugging, running around on the leash! In this session, we resolve all concerns with your dog on a leash to make it more meditative and harmonious - in partnership!

SIT Command (Outdoors)

A SIT command means differently for dogs when there's no treat involved, we are asking them to sit and relax. When we use a treat to train in SIT, he may or may not do it depending on the situation or the trigger. All Ears focuses on training every obedience command even with distractions so that your dog learns to listen anytime, anywhere.

DOWN Command (Basic & Advanced)

Teaching our dog the DOWN command is essential especially when we want him to relax and settle down in a high triggering situation. This command is taught and practiced on as well as off leash which can be used while he runs around open on a beach, a park or even in distractions.

STAY Command (Basic & Advanced)

STAY is one of the most useful commands of all, where we ask our dogs to TRUST us when we ask them to be at one spot. When you are busy trouble shooting a problem, you can't handle your dog at the same time. Giving him a STAY at such a time will teach him to trust your instinct over his own and remain calm at one spot.

COME Command (Off-leash Outdoors)

RECALL commands are taught to make sure your dog responds when left off-leash. Freedom is for everyone, and our dogs are no different. Giving them some time off the leash, trusting him to listen and come back to you when called is what training is all about. Not controlling, just listening.

Off-Leash Walking alongside you

In the final session, we teach you how to walk your dog even without a leash or transition to it with a dropped leash. This way, you are able to trust your dog even when you're not holding on to him, at the same time he trusts you to listen to your commands and walk alongside you, no matter where you go!

Revision + Graduation Session

Time to party as your pup graduates from school! In the last session we revise the commands, practice what is learnt and walk off-leash with freedom and responsibility. Put your graduation cap on as it's time to learn something fun!

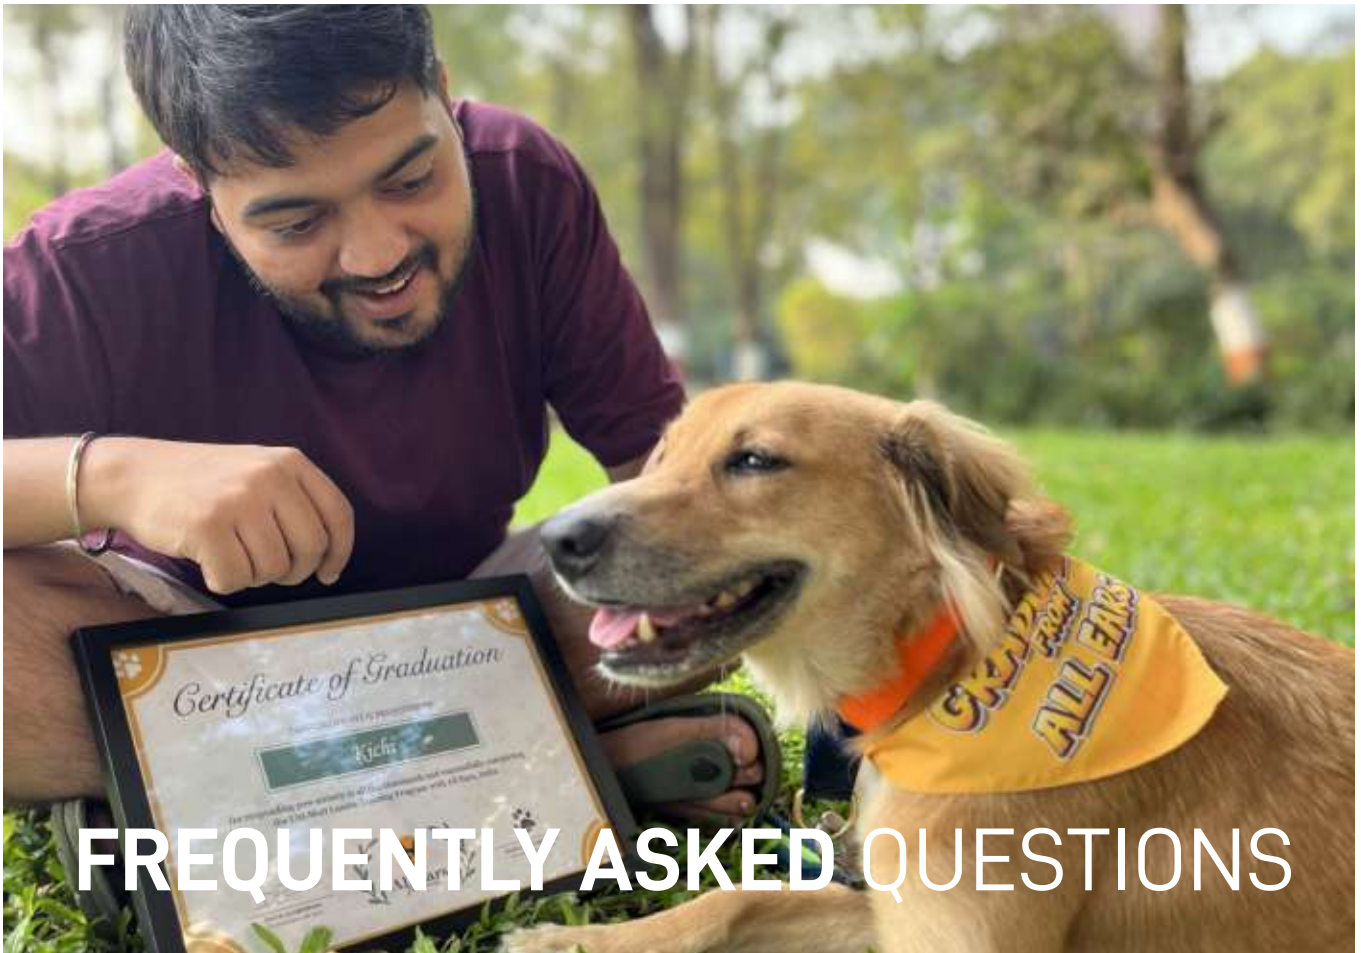

☆☆☆ BONUS SESSIONS ☆☆☆

Socialising with other dogs

Along with training, we conduct in-house socialising sessions to help your dog make new friends! The best form of exercise is mingling with his own kind!

Outdoor Session

Let's plan a picnic and take your dog to the beach, cafe, playground or trekking! Along with having fun, we will also revise commands taught in the program in outside environments off leash with distractions.

FREQUENTLY ASKED QUESTIONS

1. Will this Program be only for 3 months? What happens if my dog requires more time or I need to travel?

Our team assures the speed and style of training is customized to each dog we train. If you or your dog are taking time to learn or not understanding something, we focus on resolving it before moving forward. Three months is the average time frame mentioned, the duration of the course can be altered.

2. I don't know anything about training or have prior experience in raising dogs, can I still train him properly? Will it be better if All Ears trains him?

Experience doesn't play an integral role here. When we train you, we make sure you learn the logic, science and reasoning behind every command/technique. Training helps you listen to your dog better and since you are the one spending 24 hours with him, it only makes sense for him to listen to your command before ours.

3. What's the guarantee that my dog will master all the commands by the end of 3 months?

Our dogs are complex beings too with their own set of personalities, the aim of this program is to bridge the gap of communication and train each other. The effectiveness of the commands largely depends on your consistency, persistence and response as guided by our team, giving 100% from our end.

4. Why will my dog listen to me if I am not holding a treat? What's there for him?

Dogs don't train each other with treats. They train in their own unique way and we have adopted the same. Dogs as pets prefer receiving guidance and direction from a leading figure in the house to understand appropriate response to situations they don't understand. Treats cannot be used as a reward if we want to discontinue a behavior, we need to correct the dog and teach him desirable behaviour.

5. How can you train my dog virtually?

Training is equally effective when done via Zoom virtually. When we train over a screen, we can explain the command to you and your entire family and watch you put it into practice on the spot with your dog right then. This way, we observe the response from him and customize the command accordingly and make sure you both master it.

6. Do I need to send my dog to you for training? Or will you come home?

No. Our entire focus lies in training you to train your dog. That way, you become independent for life to handle and take care of your dog, anytime, anywhere. The relationship lies between the pet parent and the pet, we as trainers serve as mediators to bridge the gap of training and communication. We conduct our training sessions via one on one home visits, virtual sessions, or at our All Ears Training Centre in Mumbai, India.

7. Will my dog remember all the commands taught, even when he is years older as he's a small puppy now?

Our goal is to make every dog independent of his thought, emotions and actions. Training commands serve as a guide to condition them to understand what is expected out of them. Eg: if biting the furniture is off-limits for my puppy, my one command asking him to not do it should help them learn this is not allowed, hence he leaves it alone, for life.

8. Is there an age, breed or behavior limit to this program? What if I have a new born puppy, a reactive dog or an adult dog?

This program welcomes every dog with open arms. Even command and technique taught is suited to all types of dogs, regardless of age, breed, sex or behavior. Our team first evaluates the personality and behavioral concerns of the dog and accordingly bends the command to his best learning.
